Is it time for you to outsource your Refrigeration Unit Maintenance?

There are many key factors you must look at when trying to decide if outsourcing your maintenance is right for your fleet.

- ➔ No more "surprise" maintenance costs. The annual cost is fixed to ease the budgeting process
- ➔ The rising cost of diagnostic tools and repair equipment
- ➔ Parts inventory
- ➔ The value of having factory trained technicians with years of experience to catch the so-called little things that cause downtime
- ➔ Overhead costs of running a full service shop
- ➔ Equipment complexity
- ➔ The cost of fleet maintenance software

COMPREHENSIVE PRE-TRIP INSPECTION

\$60⁰⁰*

This service helps:

- ✓ Prevents premature failure of major components and accessories due to unscheduled maintenance
 - ✓ Recommended every 120 days for optimal refrigeration unit performance
1. Install gauges and perform refrigeration system diagnostics
 2. Check solenoid valves
 3. Check compressor capacity
 4. Check refrigerant level
 5. Check compressor oil level
 6. Check and adjust belts if necessary
 7. Inspect radiator hoses
 8. Check charging system
 9. Load test battery
 10. Check coolant and oil levels
 11. Inspect for any miscellaneous leaks
